### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 10 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 3,104,399 to Dalton.

Claim 10, Dalton discloses a patient lifting apparatus comprising:

an upright member 36,

a boom 52 mechanically associated with said upright member for conveying a patient from one location to another,

a support structure (12) for attaching said upright member to a bed frame, said support structure being arranged to transfer torque from the lifting apparatus to the bed frame during operation, and

a support arm 58 mechanically associated with the upright member (fig. 3) that rotates along with the boom (fig. 1) and engages a floor to transfer the vertical force of a patient's weight into the floor. With regards to the Applicant's recitation for attaching said upright member to a bed frame and being arranged to transfer torque from the lifting apparatus to the bed frame" it has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQZd 1647 (1987).

***Allowable Subject Matter***

Claims 6-9, 11-13, and 16-19 are allowed.

***Response to Arguments***

Applicant's arguments filed 9/24/04 have been fully considered but they are not persuasive.

Contrary to the Applicant's arguments, Dalton does disclose a support arm 58 mechanically associated with the upright member (fig. 3) that rotates along with the boom (fig. 1).

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
